The UCMAS Programme (Universal Concept Mental Arithmetic System) is a modern representation of the ancestral art of mental arithmetic. This concept has its origin in China and its adaptation has given rise to a unique programme that helps to stimulate children's brain activity. The use of a specific methodology through abacus and particular educational resources generates an innovative and highly effective model that shapes the child in superior skills and abilities, thus improving their teaching-learning process.

UCMAS as a programme is focused on arithmetic and cognitive skills and developing students' capabilities.

Upon registering your child to this activity, you commit to attendance for the whole term. A single charge will be applied to the October / February / May invoice in each term for the three months of activity.
